AS Villa

Villa located in Al-Masayel, has its unique form of massing and arched combined openings, our mission was to design a landscaping elements and areas that match the design spirit, a unique project with a spectacular site arrangement, front yard garden, drop off, balconies and roof.

NO Roof top

Our team desire is always to design a space that match our clients requirements at the first place considering all the factors of a functional design. the villa is located in Al-Dhayha, 120 sqm designed carefully to bring the required quality with an upscale hard and softscape design.

FE roof top

Villa located in Al-Jahraa, our goal was to design a private roof top matching the client requirement. Glass room was installed smoothly in the design to have a good time all over the year.

BS courtyard

Villa located in Quroba, 100 sqm designed with a challenging flooring, combined with special species of trees, shrubs and flowers, dealing with the theme used in the villa design.

BM out-door garden

Villa located in Subah Al-Ahmad residential area, designing half floor integrated with the another interior half smoothly and carefully, wooden elements are representing the extension of the interior part with a carefully selected species of planting to survive the conditions of artificial lighting and air conditioning.

RF Villa

Villa located in Al-Salam, designing roof, Frontyard garden, and basement landscaping areas, consisting of roof top theater, seating areas, parking shelters, playground, drop-off, green and walkways. A spectacular way to present the softscape and hardscape together.

MT Chalet

Chalet located in Al-Dhubaeya, our mission was to deal with a 80s» designed chalet, designing two separated areas to be used as gathering and seating zones.

MA Frontyard garden

Villa located in Al-Shamiya, A front yard garden designed in purpose to maintain villa main elevation, drop off with a private seating area sheltered with a custom pergola and grass open field to make an elegant wide place to be multi-used.

ER Frontyard garden

Villa located in Khaitan, consist of a green barrier surrounding the villa to create a private space with a swimming pool, and different areas for seating and BBQ to match client requirements.

ME Frontyard garden

villa located in Al-Rawdha, designed carefully with a sheltering system to be opened combining the interior yard with the front one, custom pergolas were installed smoothly in design to match the built design of the villa creating beautiful places to gather in.

AF Frontyard

Our desire to create a place could serve the client with many different needs, here we can find parking garage for cars with a close seating and BBQ area.

trees define project corridors with the best use of lighting.

SK roofscape

A roof fully loaded with greenery mixed out with lighting to create a beautiful scene all the day.

wide screens for the glass room could give us a better frame of view matching our clients requirements in the first place.

JA garden

located in Alzahra , creating a place in use in different seasons, getting the maximum use of shade and shadows to serve seating area with the textures of wood and concrete.

FA Roofscape

Simple lines, shapes and forms would create the best functional space we can get from a place.

EA Garden

Open spaces with defined areas and selected materials with the use of natural and artificial greenery elements to get a sustainable results for this type of projects.

BO Rooftop

Classic use of arches defining walkways for the project all opened to a beautiful court with food table serving, BBQ area, seating area and playground.

AT Chalet

Designing a seaside elevation oriented to a wonderful horizon view, creating pergola seating area, sunken seating to not block the view for indoor spaces and served with a food table area with BBQ counter and outdoor pantry all surrounds the over flow swimming pool.
